

# Introducing Our New Identity Verification Provider

## What is Mitek KYC Solution?

Mitek, previously called HooYu, is PayQuicker's approved and trusted digital identification partner, which assist us in rapidly and securely verifying your identity so that you can use PayQuicker to get paid.

### Is Mitek KYC Solution Safe?

Yes! Your data is protected with Mitek thanks to their TLS-encrypted connection. Within 72–96 hours following the successful completion of the ID verification, Mitek KYC Solution will immediately delete all your uploaded documents used to determine your ID.

### Why Mitek KYC Solution?

Mitek uses a variety of techniques, including ID document authentication, facial biometrics, and digital footprints, to authenticate individuals rapidly and securely from all over the world. This expedites the application process, opening your account more quickly, and is safer than conventional paper-based validation because as we share your contact details with Mitek, they share identity verification information with us.

### What Documents do You Need to Confirm Your Identity?

#### One of the following valid forms of identity:

- Passport
- Driver's License
- Identity Card
- Travel Visa
- Residence Permit
- PASS Card

#### One of the following valid address issued:

- Utility Bills
- Bank Statements
- Tax Documents
- Insurance Documents

#### Liveness Check:

A selfie for the mandatory Liveness Check which is a short motion capture that helps Mitek confirm your identity using your uploaded proofs of identity.
